*The charges shown are additional charges beyond the Early Years Funding Entitlement. The charges are for additional hours which exceed the daily 3-hour entitlement, for additional services and for lunch (where appropriate).

Additional services are wide ranging. Although not an exhaustive list, additional services would include specialised teaching (e.g. OWL, French, PE), consumables, payment towards the use and upkeep of the grounds and facilities and a staffing body whose qualifications and training are above and beyond government minimum expectations. To remain compliant with the Early Years' Provider Agreement and to support financially vulnerable families, please contact the Bursar for a discussion regarding our Alternatives Policy with reference to the payment for additional services.

If a signed declaration is not returned by the third day of each term, an additional invoice will be issued for the difference between funded and unfunded sessions.

This Early Years Funded Entitlement is available for 38 weeks per year. As our operating weeks are fewer than 38, it should be noted that you will not be able to receive your full funding entitlement solely at Edgeborough.
